

Environmental Policy

We are committed to conducting our operations in a manner which protects our environment, including prevention of pollution and sustainable use of resources. Our policies and procedures are strategically designed to manage the environmental aspects and impacts of our operations and coincide with our *Goal Zero* philosophy. In order to support this policy and achieve our commitment, Exterran has established and implemented the following:

- One Exterran Management System (OEMS)
- Environmental Objectives
- Environmental Sustainability Program
- Water Conservation and Waste Minimization
- Unplanned Event Reporting and Investigations
- Stop Work Authority (SWA)
- Management of Change (MOC)
- Operational Risk Assessment (RA) and Job Hazard Analysis (JHA)
- Operational and Procedural Audits
- Management Reviews
- Root Cause Analysis (RCA) and Actions

Our business will be conducted in accordance with the laws and regulations governing the areas we occupy and will fulfil our corporate compliance obligations. Our environmental management system and its processes will be monitored, measured, evaluated and continually improved upon by incorporating industry best practices, incident learning's, and regulatory updates to enhance our environmental performance. The Executive Leadership Team of Exterran expects all employees, contractors, visitors, and/or other relevant interested party at our facilities to review and comply with the contents of this policy.

A handwritten signature in black ink that reads "Andrew Way".
