

## Quality Policy

We are committed to achieving the satisfaction of customers and relevant interested parties by consistently providing state-of-the-art products and services that is of the highest quality. To achieve this commitment, the Exterran Corporation has established and implemented the One Exterran Management System (OEMS). OEMS will ensure that we continuously operate at the highest level of accuracy, efficiency, and reliability through the implementation of:

- Quality Objectives
- Control of externally provided products and services
- Management of Change (MOC)
- Communication Processes
- Customer and Legal Requirement Reviews
- Customer Feedback and Satisfaction Surveys
- Operational Risk Assessment (RA)
- Operational and Procedural Audits
- Management Reviews
- Root Cause Analysis (RCA) and Actions

In order to continually improve our quality performance, OEMS will be regularly monitored and reviewed to meet the demands and expectations of our customers, regulators, and other relevant interested parties. Any change occurring within OEMS will be effectively planned, implemented, and communicated to ensure the integrity of our operations is never compromised.

The Executive Leadership Team is committed to securing our long-term sustainability and will provide the resources including organizational knowledge necessary to achieve the objectives of this policy.
